## SUMMARY

Ambitious front-end developer with more than two years' experience. Specialize in web development with JavaScript, TypeScript, and React. Actively looking for a prospective job opportunity within a congenial team.

## EXPERIENCE

**manga.ovh** – *front-end react developer*

OCTOBER 2021 – JANUARY 2024

Front-end Tech Stack: TypeScript, React, Remix, MUI

- Engaged in creating UI and UX design of the site. Converted mockups into responsive, dynamic React components. Implemented code to optimise front-end load time.

I gained a lot of valuable qualities and skills from this project: learning new tools quickly, fixing bugs, refactoring code, thinking over the site architecture and working with TypeScript, Next.js, Remix, GraphQL, Rest API, Git plus many React libraries.

## TECHNICAL SKILLS

- HTML5, CSS3, JavaScript ES6+, TypeScript
- React, Next.js, Remix, Tailwind
- RESTful API, GraphQL
- Golang, Fiber
- Postgres, Prisma, Gorm
- Git, Docker, Linux

## SOFT SKILLS

- Time Management
- Adaptability
- Communication
- Problem-solving

## LANGUAGES

- English – Level B2
- Bulgarian – Native
- Russian – Native

## HOBBIES

I enjoy reading technical literature, studying history and philosophy, and playing the guitar.
